

POWER PACKS

AP-1000S Pneumatic

AP1000S with Mono Port

AP1000S - High Flow – High Speed for Heavy Duty Application

- Quadra-Port Multi-Port Manifold (Max. 4 Ports).
- Cool running continuous duty axial piston pump.
- Powerful industrial duty air motor.
- Runs on 70 cfm / 90 PSI of air.
- Quiet operation (approx. 75-80 dBA @ 10,000 PSI).
- Rugged remote pendant to control motor and valve.
- Easily adjustable pressure control knob.
- Auto-dump relieves oil pressure from hoses.
- Filter-lubricator for long trouble free operation.
- 2 Gallon oil reservoir.
- Precise PSI/BAR pressure gauge.
- Quick-connect no-drip couplers with safety locking collar.
- Supplied with dual non-conductive high pressure hose with couplers.
